Teaching Purpose

Our goal for the semester is to allow the students to start learning Chinese characters through writing and reading simple Chinese words. Chinese characters are the basic units, as important as the “Building Blocks”, the basic fundamental of the Chinese language. Students will learn to spell, write and read simple Chinese characters and words, and later learn to make simple Chinese phrases and short sentences. I will also want my students to learn more of the Chinese culture by introducing Chinese songs and stories. During the semester, all students should be able to do the following:

- Be able to spell and read the characters
- Be able to clearly pronounce the words
- Be able to write the Chinese words
- Have their exercise books have to be done after each class
- Complete four comprehensive exercises
