I graduated from Gansu Educational University with B.A., majored in English literature, taught English in middle/high school for many years in China. I moved to United State in 1995 summer, and received certificates of Computer Programming and Database Management from America River College in 2000, then started to work as a State employee.

Over 20 years ago, I was the first Chinese teacher for Chang Cheng Chinese School, and had served the school for about 18 years.

Currently, my husband, Shawn Wei, and I live in Folsom. We have three great kids, Don, Christine (daughter-in-law) & Victor, in college. I love teaching, dancing, and traveling. CCEA and CCCS have brought countless joyful moments and memories to all of my family members. Now, it's my pleasure to serve them.
