

Lily Sun (李泽英)

Senior Bridge Engineer
Division of Engineering Services
Caltrans
Phone: (916) 227-8915
Email: lily.sun@sbcglobal.net

I graduated from University of South Florida with a Master degree in Structure engineering in 1991, then joined California Department of transportation. Currently I am working as a senior liaison engineer responsible for the structure design approval of locally funded projects designed by the consultants.

I am married with two wonderful sons. Traveling is my favorite activity; I especially enjoy our family vacations every year. Also, I like hanging around with friends to have fun time.
